

IntelliSuite

HIPAA Risk Analysis Service

The Fastest, Easiest Way to HIPAA Compliance

All e-PHI created, received, maintained or transmitted by an organization is subject to the HIPAA Security Rule. The Security Rule requires entities to evaluate risks and vulnerabilities in their environment and to implement reasonable and appropriate security measures to protect against reasonably anticipated threats or hazards to the security or integrity of e-PHI. A Security Risk analysis is the first step in that process.

Why Conduct a Security Risk Analysis?

- ◆ A Security Risk Analysis is the first requirement of the HIPAA Security Rule.
- ◆ A Security Risk Analysis is required in 2015-2017 Meaningful Use Objective 1.
- ◆ Failure to complete a Risk Analysis can result in significant fines and force repayment of incentives. The OCR and CMS auditors will ask for your Security Risk Analysis if you are audited.

Benefits of the IntelliSuite 3 Step HIPAA Risk Analysis Service:

The IntelliSuite 3 Step Risk Analysis Service simplifies the process and provides a clear action plan to make compliance attainable.

- ◆ **Save Time and Money** - Reducing the time spent by your internal resources will result in significant cost savings.
- ◆ **Data Breach Prevention** - Your Risk Analysis will show you where your system is vulnerable to hackers, device loss, device theft, unauthorized access and improper disposal, which are the leading causes of data breaches in 2016.
- ◆ **Peace of Mind** - Knowing that your Risk Analysis is complete and accurate is critical. The HHS recommends that medical practices hire a professional to conduct their Risk Analysis to eliminate risks associated with inexperience.
- ◆ **Management Action Plan** - This report is presented in a format that is easy to understand and implement, and provides the documentation an auditor will want to see to prove you are implementing the safeguards necessary to protect ePHI. We have services to help you implement any solution that you need help with.
- ◆ **Resources when you need them** - If you ever receive an audit notice or experience a breach, you will have a complete staff of IT Professionals and HIPAA Compliance professionals available to answer your questions and provide guidance.

We're Always Here

The IntelliSuite 3 Step HIPAA Risk Analysis Service:

Step 1 - IntelliSuite Data Collection Service

HHS advises that ...“doing a thorough and professional risk analysis that will stand up to a compliance review will require expert knowledge that could be obtained through the services of an experienced outside professional.” At IntelliSuite, all of our engineers are Certified HIPAA Security Professionals, have the depth of understanding HIPAA requirements, plus the knowledge of IT systems and security tools needed to conduct an accurate analysis. Our data collection process includes the following services:

- ◆ Comprehensive Network Scan
- ◆ External Vulnerability Scan
- ◆ Onsite Facility Walkthrough
- ◆ Network Infrastructure Evaluation
- ◆ Onsite Completion of Risk Analysis Interview

Step 2 - Risk Analysis Reports and Documentation

As Healthcare IT Specialists since 1997, we believe that hiring an independent 3rd Party HIPAA Compliance Company with an understanding of the protocols used by auditors is in the best interest of our clients and eliminates any potential conflict of interest. We partner with HIPAA Secure NOW, www.hipaasecurenow.com to analyze the risk analysis interview and networks scans completed in Step 1, and evaluate your compliance and security environment with fresh eyes. Their attention to detail, quality of the Risk Analysis reports, and outstanding customer service are the reasons we recommend them to our customers. Your account is set up directly with them, and you own all of the documentation. As part of this service, you also receive the following added benefits:

- ◆ Official Risk Analysis Report that is audit ready
- ◆ Templates for 18 Policies and Procedures required by HIPAA
- ◆ Online Security Training for all employees
- ◆ Business Associates sample agreements and plan to verify their compliance
- ◆ Data Breach Notification Plan Template
- ◆ A Private Online Portal to keep all of your HIPAA Compliance Documentation centralized

Step 3 – Management Action Plan

We stay with you every step of the way from the data collection to the presentation of findings from HIPAA Secure NOW. We believe this next step really sets us apart, as many companies leave you to figure out what to do with the reports you've received. IntelliSuite takes your Risk Analysis and Management Plan and helps you create your 12 Month Action Plan that provides you with a roadmap to HIPAA Compliance for your practice. This document will demonstrate to an auditor that you are actively fulfilling your responsibility of protecting ePHI.
